WORK EXPERIENCE

Cybersecurity Analyst

PointClickCare

Jan 2025 - Apr 2025

Mississauga, ON

- Resolved 50+ CrowdStrike and ReliaQuest alerts to prevent data breaches and maintain system availability
- Led an initiative to tag 1000+ apps in Defender for Cloud Apps, boosting cloud security visibility and governance
- Built a Python application with Pandas and Tkinter to automate MFA audits, reducing manual work by 97%
- Handled 5+ daily security issues via ServiceNow, minimizing disruptions and maintaining employee productivity

Software Engineering Research Assistant

Health and Rehab Research Inc.

Sep 2023 - Nov 2023

Mississauga, ON

- Built 5+ TensorFlow models to detect cardiac anomalies, enabling early diagnosis and reducing ER visits
- Cut model training time by 50% through optimization, enabling faster prototyping and reducing compute cost
- Boosted model accuracy by 45% on clinical data, validating product viability for hospital-grade deployment
- Processed and cleaned 10K+ patient records to eliminate research inconsistencies and accelerate clinical validation

Test Automation Developer

Evertz Microsystems

Jan 2023 - Apr 2023

Burlington, ON

- Automated 5+ QA steps with Python/Selenium, reducing test time and freeing engineers for higher-priority work
- Tested firmware/software builds across 20+ client setups, preventing bugs and reducing support tickets
- Worked in a 2-person QA team to run structured tests and adapt workflows to dynamic hardware setups
- Deployed 10+ QA servers post-security incident, restoring testing infrastructure and preventing deployment delays

PROJECTS

FortuneLink | Java, Spring Boot, React, PostgreSQL

Apr 2025 - Present

- Building a financial platform to simplify investment tracking, liabilities, and net worth for non-expert investors
- Architecting project with Domain-Driven Design for scalability and modularity without performance issues
- Implementing OAuth 2.0 authentication and preparing a containerized AWS cloud deployment

TinyHandsTalk | Python, Angular, TensorFlow, FastAPI

Jan 2024 - Dec 2024

- Developed and led a baby learning application featuring a custom ML-learning powered sign language practice tool
- Led sprint planning in MS Projects, keeping the team on track and accelerating the delivery of core features
- Curated 10,000+ training samples to achieve production-ready accuracy for real-time parent-child interaction

EDUCATION

Bachelor of Science in Computer Science

York University

Starting Fall 2026

North York, ON

Advanced Diploma in Computer System Technology

Sheridan College

April 2025

Brampton, ON

TECHNICAL SKILLS

Languages | C, C#, Java, JavaScript, Kotlin, Python, R, SQL, TypeScript

Frameworks | Angular, FastAPI, JUCE, JUnit, .NET, Spring Boot

Developer Tools | Android Studio, AWS, Docker, Git, Jenkins, MongoDB, MySQL, Visual Studio Code, Visual Studio

Libraries | Bootstrap, Matplotlib, NumPy, Pandas, TensorFlow
